

## LOCAL NEWS.

**ALEXANDRIA ENTERPRISE.**—We recently had occasion to visit the "Jamieson Steam Bakery," in this city, and although we knew from the character of the goods which they were manufacturing, that the present proprietors were successfully prosecuting their business, yet we had no idea of the capacity of the bakery, nor the facilities for baking which the Messrs. Hill & Co. have recently introduced. It may be interesting to our country readers to know, that the present bakery occupies the site of the original, which was built nearly a century ago, when its manufactures were not only sought for in this country, but found a place upon the tables of the Royal families of Europe. The building in its exterior has undergone few changes, having been built expressly for the business, but in its arrangements within there is a striking change. The old time "wood horse" which used to move supreme in the bake house long since, gave way to the march of progress, and a neat steam engine with patent cracker machine and accompaniments took their position, and now Messrs. Hill & Co. have erected one of the latest and most approved patterns in cake making machinery which cuts out 600 cakes per minute when worked to its maximum capacity; it has 5 sets of cutters with 472 cups in all, and does its work hand, some, the dough is not touched by the hand after it is mixed, but passes over the machine and the cakes are "panned out" ready for the oven. The proprietors are now making ten different varieties of cakes, the superior quality of which we can fully attest from personal experience. On the first floor is all the machinery and the four ovens, the tops of the latter reaching up to the second, making thus a kiln for drying such crackers as need it. In the second story are gathered all the crackers; they are packed, coopered and shipped from this floor; the third story is devoted to ovens. Here are long rows of tables made of clean dressed pine boards for steaming from which the cakes are packed and removed to a sale room airy and well ventilated, where they are piled in classes ready for shipment. We were shown without reserve into the flour house, the soles, the butter, sugar and molasses rooms, or where our eyes rose or appetites led us, and all evidenced unexpected but very gratifying state of cleanliness and order. We understand from Messrs. Hill & Co. that they are offering to the merchants and others of the state such inducements as justify them in buying here in Virginia, rather than to send outside of the State as was necessary heretofore, when the great variety and styles now taking could not be had. We wish our new friends all the success which their enterprise and energy should command, and we hope that others taking note of this success, will be induced to take up the manufacturing interests of our city, and regain for Alexandria not only her former character as a lively commercial mart, but having her interests fully represented in the highway of progress, give her a name and a place among cities, which shall far surpass even her best days in the past.

**KNIGHTS OF PYTHIAS.**—The Grand Lodge, Knights of Pythias, assembled in Richmond on Wednesday, Grand Chancellor Hugh Latham, in the chair.

Representatives were present from Norfolk, Lynchburg, Alexandria, and Richmond. The election of grand officers took place last night, and resulted as follows:

G. C. W. H. Wade, of Richmond; V. G. C. J. William Morgan, of Lynchburg; G. R. & C. S. W. W. Gosden, of Richmond; Grand Banker, J. B. Vaughan, of Richmond; G. G. S. McElroy, of Alexandria; G. I. S. Thomas R. Garey, of Norfolk; G. O. S. P. C. Blunt, of Richmond; D. D. G. C. C. for Alexandria, George Duffey; D. D. G. C. C. for Norfolk, H. Armstrong; D. D. G. C. C. for Lynchburg, J. W. Morgan.

The resignation of E. G. Tompkins as Grand Representative to the Supreme Lodge was received, and, on motion, Past Chancellor Hugh Latham was elected to fill the vacancy thus occasioned.

These officers were installed last night and the meeting adjourned. Representatives were from Oriental Lodge No. 6, and Boynton from Mechanic's Lodge, No. 3, of this city, to the meeting of the Grand Lodge, returned this morning, and report that the order is in a flourishing condition.

**STEAMSHIP LINE.**—On Monday next one of the Massachusetts Representatives will introduce in the House a bill to incorporate the Washington, Norfolk and Boston Steamship Company, which company proposes to establish a permanent line of steamship communication between Washington, Alexandria, Norfolk and Boston. The bill names as incorporators James G. Grinnell, Wendall T. Davis, George W. Porter and Henry Mayo, of Boston; Horatio A. Browning, Alpheus Middleton, Wm. L. Wall, Edwin A. Ryther, G. M. Wright, Wm. H. Morrison, George P. Gaff, Henry F. Zimmerman, Andrew Potts and Adam Gaddis, Jr., of Washington, D. C.; Wm. Albert King and Edward Hartley, of Georgetown, D. C.

**WASHINGTON, ALEXANDRIA AND GEORGETOWN RAILROAD COMPANY.**—The directors of this company elected for the ensuing year, on Thursday held a meeting and elected the following officers, who are the same as served in the several positions last year: President, Sylvanus S. Riker, of New York; Vice president, Henry Hart, of New York; Treasurer and Secretary, A. W. Nichols; Superintendent, C. C. Saller. The directors passed complimentary resolutions to these officers for the faithful and successful management of the road during the year past, and have no idea of reducing the salaries of these officials.

**POLICE REPORT.**—Mayor's Office.—Sarah Hart, arrested by Watchmen Webster and Porter for assaulting and beating Lewis Fries, was, in default of the payment of the money then connected to the Work House for thirty days.

**MAJESTY'S OFFICE.**—There were no cases of a criminal character at either of the Magistrate's office this morning.

**WATER REPORT.**—Night clear but hazy, and warm till towards morning, when the sky became cloudy, the wind came out from the northwest and the temperature turned cool. More people than usual were on the streets. One man was made by the Watch, and one ledge was accommodated at the Watch House.

**BREVITIES.**—Mr. Charles Brill has received a letter from Maurice Duval, the man sent to the Penitentiary for robbing him, dated Fleetwood farm, the residence of Mrs. Gibson, in Prince William county, Virginia, stating that he has been released from confinement by a pardon from Gov. Walker, and asking that some clothes which Mr. Brill has in his possession be sent to him.

The office of Justice Bench was broken open last night by prizing off the fastenings. A valuable mule belonging to Mr. A. D. Osgood, of Fairfax county, was taken sick yesterday evening and died suddenly at the upper end of King street, after the administration of a pint and a half of concentrated lye, which had been advised by a bystander.

A large fire is supposed to have occurred in Prince George's county, Maryland, opposite this city, yesterday evening, as a great light was seen in that direction.

A poor little baby, whose father has deserted its mother and itself, was brought to the Mayor's office this morning by a colored woman, who said that the woman at whose house it had been left was unable to take care of it, and that its mother had nothing to eat herself, and was houseless. The mother, who came soon after to see what had become of it, when told that the city could not take care of infants who had fathers to provide for them, took it away with a sorrowful heart.

The warehouse of Mr. B. H. Lambert was burglariously entered a night or two ago, but as it contained nothing but guano, the thieves got nothing for their trouble.

Messrs. Sanford Brown and Fred Kecker, in charge of Deputy Marshal Garwood, left here last night for Richmond, to be tried on the charge of infraction of the Internal Revenue laws in selling tobacco from unstamped packages.

The amateur concert for the benefit of the Sewing Society of the 24 Presbyterian church will be given on the night of Wednesday, the 26th instant.

Winter came back again this morning. Operations have been resumed at the Mount Vernon Cotton Factory—though the full complement of hands will not be employed for some time.

**THE CONTESTED ELECTION CASE.**—The taking of testimony in the case of Chas. Whittey, who proposes to contest the right of Hon. Lewis McKenzie to his seat in the U. S. House of Representatives, was continued today. Thos. Davy testified as to the loyalty of Mr. McKenzie; did not know about his speeches and action in Council.

J. A. Field was examined in regard to a receipt given for 500 barrels of oats seized by order of Col. C. R. Stuart of the 15th Virginia regiment; had forgotten that he had signed a receipt to Mr. McKenzie for them; had given it as clerk of the Quartermaster's Department; knew nothing further about it.

J. F. Carlin testified as to the loyalty of Mr. McKenzie, could not explain about his speeches in the Legislature or actions in Council, but had no doubt, he was governed by proper motives.

N. P. Trist, former Commissioner in Mexico with Gen. Winfield Scott, was next examined, and proved the handwriting of General Scott's reply to Mr. McKenzie's letter from Richmond; this reply was dated 27th of March, 1861; knew Mr. McKenzie's letter from the breaking out of the rebellion and during its progress as the leading union man of Alexandria; had frequent conferences with him before and during the rebellion; made a point to call on him whenever he came to Alexandria from Philadelphia, because of his Unionism and sympathy with the witness in the common cause of the union. He was thoroughly cross examined by Mr. Whittlesey, who again, however, failed to make out Mr. McKenzie a disloyal man.

**ALEXANDRIA LIBRARY.**—As an evidence of the interest felt in this institution by some of our former citizens, we may mention that a letter was received, to day, by the Principal of St. John's Academy, from a former student of that school, now resident in Baltimore, requesting him to present to the most meritorious student of the present session, as a gift from him, a share of stock in the library. This he proposes doing every year, as a return in part, for the benefit he himself received, in his youth, from the use of the books there. He says: "I feel greatly interested in the reorganization of the library, and very naturally too, when it is remembered that some of the happiest hours of my life were spent in connection with that institution." In accordance with the request, the stock is to be given to that member of the graduating class who passes the best middle examination.

**MEETING OF THE CORN EXCHANGE.**—At a meeting of the Corn and Produce Exchange, held at their rooms this morning, the President, P. B. Hoce, announced the death of Mr. D. R. Blacklock, a late member of the body. A committee consisting of Messrs. G. V. Worthington, George Washington and G. R. Shinn, having been appointed to draft resolutions of respect to the memory of the deceased, reported the following, which being unanimously adopted, the meeting adjourned.

Resolved, That the members of this Association, with sincere regret, that it has pleased an overruling and all-wise Providence to remove from our brother member Dennis R. Blacklock, and we would tender to his bereaved family our heartfelt sympathy and condolence in this their hour of affliction.

Resolved, That the members of this Association attend the funeral of their deceased brother to-morrow morning, at 11 o'clock.

**MASKED BALL.**—The masked ball of the Entente at their hall last night, was as was anticipated by all who knew anything about the gentlemen selected as managers, a great success, and to day has been the topic of general conversation and of unfeigned praise. The attendance was large—larger than expected—the music excellent, the masks represented the most varied characters and the metamorphoses exact, the pantomimes were well performed, every body was in good humor, and every thing passed off very pleasantly. The festivities did not terminate until nearly day light this morning, and the entertainment will long be remembered as one of the most agreeable ever given in this city.

**HEAVY FALL.**—Yesterday afternoon, while a party of gentlemen were in the parlor of Schuler & Clevergers, soap and candle manufacturers, corner of Payne and Cameron streets, engaged in conversation, the railing upon which Mr. Cleverger was sitting suddenly gave way, and that gentleman was precipitated to the pavement below, and was painfully though not dangerously injured. Two others of the party narrowly escaped a like misfortune.

## TELEGRAPH NEWS.

## SPECIAL DISPATCHES TO THE GAZETTE.

**ADMISSION OF VIRGINIA.**  
WASHINGTON, Jan. 14, 5 P. M.—Bingham's bill was carried as a substitute for the Reconstruction Committee's bill by a vote of 98 to 95. The bill as amended was then passed by the House by a vote of 143 to 49.

**Congress.**  
WASHINGTON, Jan. 14.—In the Senate, today, there were but few petitions, bills, or resolutions offered, and none of special interest.

Mr. Cole of California read a long statement in reference to the seizure of spirits in San Francisco.

In the House of Representatives the bill for the admission of Virginia was further discussed until 3 o'clock.

The House agreed to adjourn over until Monday.

## Removal of the Capital.

St. Louis, January 14th.—There will be a meeting at the Southern Hotel to-night to consider the subject of moving the National Capital to the Mississippi valley.

Resolutions will be introduced providing for the appointment of a committee of five to correspond with the Governors of all the States, request them to ask the Legislatures of their respective States for a memorial to Congress to appropriate no more money for the creation of new, or extending the present public buildings in Washington. The committee will also be instructed to prepare a paper containing all the statistics possible bearing on the subject of the removal and showing the extent, magnitude, and the variety of interests of the Mississippi valley, to send to each member of the different State Legislatures. Much interest is manifested in the matter.

## The Markets.

New York, January 14.—Stocks steady. Money 7 per cent. Exchange, long 82; short, 94. Gold 212. Five-twentieths, 1863 coupon, 152. Virginia sixes, ex coupon, 67; new 60.—North Carolina sixes, old, 40; new 22. Flour dull and little lower. Wheat dull and 1/2c lower. Corn dull and 1/2c lower.

Baltimore, January 14.—Virginia sixes, old, 41 bid, 46 1/2 asked; do. 1860 50 bid; do. 1867 51 bid, 52 asked. North Carolina, new, 20 bid. Cotton—offerings light at 25¢; flour, dull and unchanged. Wheat dull, except for choice; prime to choice Maryland 140 1/2. Corn firm; white 98 1/2; yellow 90 1/2. Oats steady at 54 1/2. Rye firm at 10 1/2. Pork quiet at 29 1/2. Bacon quiet; rib sides 16 1/2; clear do. 17 1/2; shoulders 13 1/2; hams 20. Lard quiet at 17 1/2. Whiskey held firm at 1 00 1/2.

**SEVERE WINTERS.**—The New York papers published a record, made up from old diaries, of the weather during the winters which elapsed between 1789 and 1832. The table gives the date of the closing of ice of the Hudson river, and of the opening of navigation in the spring. No general rule as to the regular alternation of mild and severe weather can be laid down from this table. Of the forty-two winters sixteen were mild, but some of them occurred in immediate succession.—Thus, from 1792 to 1796, there were four mild winters; then, from 1796 to 1799 three severe; from 1799 to 1804 five mild winters; then a succession of mild and severe winters until 1811, when a long series of eighteen severe winter set in broken only by three mild winters. The record would have been more valuable had the warmth of the summers been noted, as there is a theory that the average temperature is the same for every year; that is, a hot summer is counterbalanced by a severe winter and a temperate summer by mild winter.

The "political condition" of the States of Maryland, Virginia and Delaware, is said to be at the bottom of the plan for slicing off a portion of the territory of the two first named, and forming a proposed State of Chesapeake. We believe Delaware is, under the arrangement, to be obliterated altogether. We are in a process of "Reconstruction" all round the board!

## MARRIED.

On Wednesday, Jan. 12th, 1870, in Washington city, D. C., by Rev. R. B. Bittinger, pastor of the 7th St. Presbyterian Church, Mr. CHAS. T. SMALLWOOD to Miss MARY E. BALDARD, both of Virginia.

January 12th, 1870, by Rev. L. H. Crenshaw, Major DANIEL C. HATCHER and Miss MARY META CHUNN, oldest daughter of Andrew J. Chunn, esq., all of Fauquier co., Va.

DRAHAM, 91 King st. nov 19

## SPECIAL NOTICES.

## The Living Machine.

Injure the main spring of a watch and every portion of the works becomes disordered. The human stomach is to the human system what that elastic piece of metal is to a chronometer. It influences the action of the other organs and controls, to a certain extent, the whole living machine. The comparison may be carried further: for as the weakness or other imperfections of the main spring is indicated on the face of the time-piece, so also is the weakness or other disorder of the stomach betrayed by the face of the invalid. The complexion is sallow or faded, the eyes are deficient in lustre and intelligence, and there is a worn, anxious expression in the whole countenance which tell as plainly as written words: could do that the great nourishing organ whose office it is to minister to the wants of the body, and to sustain and remove all its parts, is not performing its duty. It requires renovating and regulating, and to accomplish this end Hostetter's Stomach Bitters may be truly said to be the *living machine*. The broken main spring of a watch may be replaced by a new one, but the stomach can only be repaired and strengthened, and this is one of the objects of the famous vegetable restorative which for eighteen years has been waging a successful contest with dyspepsia in all climates. As a specific for indigestion it stands alone. When the results of the pharmacopoeia have been exhausted, without at best doing more than mitigating the complaint, a course of this wholesome and palatable yet powerful, stomachic effects a perfect and permanent cure. In all cases of dyspepsia the liver is more or less disordered, and upon this important gland, as well as upon the stomach and bowels, the Bitters set with singular distinctness, regulating and reinvigorating every overworked and ailing organ on which bodily and mental health depend. jun 10—eolw

## Just Out!

**"CHERRY PECTORAL TROCHES,"** For Colds, Coughs, Sore Throat and Bronchitis. SURE TO CURE, SURE TO PLEASE. SURE CURE AS QUICK. RUSHFORD & CO., 10 Astor House, New York. dec 1—3m
